IACE pays courtesy visits to Hon Tam Brisibe in Abuja.

On Thursday 21st October 2010, the Institute of Appraisers and Cost Engineers led by the Chairman Engr. Chief Gian-domenico Massari JP, FNSE, paid a courtesy visit to Hon. Tam Brisibe who is a member of the House of Representatives of the Federal Republic of Nigeria and the Chairman House of Representative Sub-Committee on Local Content. The institute discussed ways on how to synergize with the House of Representative Sub-Committee on Local to achieve the goals of local content.

The chairman informed Hon Brisibe that IACE undertakes courses on Cost Engineering and Evaluation of Machinery and Equipment and that notwithstanding, the institute is a division of the Nigerian Society of Engineers.

In his response Hon. Tam Brisibe thanked the institute for thinking it necessary to meet with the National Assembly on issues that affects institute and the National Assembly especially as pertaining to the Local Content in the Oil Industry. Brisibe said; definitely what I will say here is, we do not pass the law for the members of the National Assembly. The law was passed for Nigeria and the major part of the people who should participate and ensure that the body of the law is complied with are people in the engineering field. A lot of what happens in the oil industry has to do with engineering.

On his recognition by The GUARDIAN Newspaper as one of the 30 (thirty) **MOST EXCEPTIONAL ALUMNI** of the first indigenous University in the Country, the **UNIVERSITY OF NIGERIA** Nsukka, in its 50 (fifty) years of existence. We attest to the tirelessness, boundless courage, restless determination, efficiency and integrity with which this LION has professionally purposefully raged, and fruitfully roared to **RESTORE THE DIGNITY OF MAN** in our fatherland, and all over the Globe, since being uncaged 34 years ago. He is indeed an exceptional professional to have been awarded the Nigerian Society of Engineers Merit Award in 1988, 2001, 2003 & 2009! For having demonstrated **EXCEPTIONAL** proficiency as a professional appraiser, made a distinguished contribution to the appraisal profession by, assemblage of data; design and development of appraisal training modules; elucidating appraisal principles, standards and practice in government, media, and courtroom; and as a teacher; author; researcher and editor, his peers in the Institute (IACE) esteem him **FELLOW** in the Valuation of Machinery & Equipment (the first and so far the only members so esteemed).
